

This committee assists the Parish Priest and the Parish Pastoral Council in administering the physical assets of the parish, including administering finances and care of various church property, including our two churches.

The Finance and Property Committee meets four to five times a year and includes members with a finance/accounting background.

There are many other groups within the parish, such as [St Vincent de Paul Society](#) , etc, who administer to both the spiritual and other needs of those in our community. Any parishioner interested in any of the committees or groups should, in the first instance, contact the Parish Priest.

The needs of the parish are understood to be a shared responsibility of the community through its mission, but as Canon Law reminds us, it is ultimately the responsibility of the Parish Priest.
