

## **GUIDELINES FOR PHOTOGRAPHERS/VIDEO OPERATORS**

Welcome to the Richmond Catholic Parish.

The liturgy is enhanced by a respectful reverence by all those who attend the services in one of our churches. Photographers/video operators are asked to adhere to the following guidelines in order to respect the integrity and centrality of the liturgy:

- No photographer or video operator is to enter the carpeted sanctuary area unless invited by the priest.
  
- Family, close friends and other members of the congregation wish to witness the celebration without their field of sight being interrupted, therefore please do not move in front of the front rows of the congregation.
  
- During the readings from scripture and prayers said by the priest and others, please avoid distracting the congregation.

We expect photographers and video operators to follow these guidelines and the directions of the priest during the celebration of the sacred liturgy.
